Pro-Chancellor's MESSAGE

SRM University-*AP* is the first educational institute to be established in Amaravati, Andhra Pradesh, in 2017, envisioning quality education and international exposure to the ground roots of the country, with a vision to be globally connected, nationally relevant, and regionally transformative. From its humble beginnings in the outskirts of Andhra Pradesh 7 years ago, we have become a forerunner in the tertiary education sector, contributing to the social development, scientific growth, and academic excellence of the country.

SRM University-*AP* is now a leading institution disseminating education on par with global standards and international academic, research, and industrial exposure to the talented youth of the nation. We identify education as the fundamental prerequisite for achieving full human potential, developing an equitable and just society, and promoting the country's development. Our innovative programmes and courses train our students to manifest academic and research excellence under the guidance of seasoned faculty.

Research is a principal pillar of the university, with an emphasis on research publications, patents, and design copyrights, which play a crucial role in preparing students for advanced studies. The university is committed to investing in building a strong research culture and research capacity among the faculty and students across different domains. Students and faculty at SRM University-AP actively participate in cutting-edge translational research to gain invaluable industry and research experience.

Entrepreneurial spirit runs deep within the ethos of SRM University-*AP*. We continue to foster this culture by providing our students with the tools, mentorship, and resources needed to develop their own ventures. Through initiatives like the University's entrepreneurship cell and incubation centers, many of our students have turned innovative ideas into successful start-ups. We remain committed to encouraging this spirit of innovation, recognizing that entrepreneurship is a key driver of economic growth and societal change.

Our placement record stands as a testament to the quality of education and industry readiness of our students. This year, we saw an exceptional placement season with a significant number of students securing positions at leading multinational corporations, reflecting our robust industry ties. We have also increased our efforts in creating partnerships with global companies, which have helped provide internships, placements, and hands-on training, ensuring that our graduates are well-prepared to meet industry demands.

We also embody the vision to transform regional as well as national landscapes through our social development programmes. Frequent community and social engagement activities are conducted by the university to initiate an exemplary model of social responsibility and to enlighten students on the importance of being a socially responsible citizen.

Prioritizing the importance of educating the youth in emerging fields such as Artificial Intelligence, enhancing 21st-century skills, and the significance of an industry-led academic curriculum, SRM University-*AP* will undertake new projects and expand the campus to include several new schools. The proposal has been accepted and initiated for the development of the institute and will summate the progression of the state by enhancing literacy and human capital.

In the years ahead, through our wide scholarships, revamped curricula, entrepreneurial heritage, and pioneering faculty, SRM University-*AP* will continue to strive to be at the forefront of tertiary education as a multifarious research-oriented institute delivering education for individual and social responsibility.

Vice Chancellor's
MESSAGE

SRM University-*AP*, Andhra Pradesh, founded in 2017, continues to attract national and international students with high potential and ingenious minds into its folds of academic excellence.

The multidisciplinary research-intensive new-age university is making strides to foster innovation, pushing the boundaries of knowledge, and preparing the next generation of trailblazers in their respective fields. Within the first seven years of establishment, the university has grown exponentially in terms of the number of students, number of scholastic faculty, state-of-the-art infrastructure, research laboratories and grants, innovation and start-up culture and effective corporate and international collaborations.

FY 2023-24 has also been productive in many ways. The university implemented its second Five-Year Strategic Plan, which encompasses five strategic goals: Enhance the student experience; Achieve academic excellence; Intensify research, entrepreneurship, and innovation spirit; Attain financial sustainability; and Improve perception and visibility. Each goal has several operational goals, key performance indicators, targets, and actions to be taken to accomplish those targets.

The newly implemented revamped NEP-enabled curricula of all programmes have enthused the student community to another level. They are engaged in more activities beyond their classroom teachings, as the emphasis has been placed on experiential, project-based, and hands-on learning. The introduction of a new industry-oriented master's programme in sciences has added to the university's academic growth.

Since its founding, the university has been a research-intensive institution, and its activities in research, innovation, and entrepreneurship were further intensified in FY 2023-24. The number of faculty members increased from 250 in FY 2022-23 to 350 in FY 2023-24. 40% of our current faculty base has postdoctoral and international experience from institutes of excellence around the world. The number of Ph.D. scholars increased from 221 in FY 2022-23 to 361 in FY 2023-24.

Faculty, research scholars, and UG & PG students across various departments and research centres continued to work on interdisciplinary research problems. This can be easily seen from the research outputs in the form of research grants, research publications, patents and technology transfers. The statistics for the FY 2023-24 are- Research grants: 51, research papers in peer-reviewed Scopus-index journals: 637, books: 3, book chapters: 33, international conference publications: 181, patents published: 72, patents granted: 16 and design patents: 3. Five of our expert faculty were recognised by Stanford as among the Top 2% of Scientists in the world. Our faculty members have also won the prestigious Bhaskar Award, Hiyoshi Young Leaf Award and many others during the FY 2023-24.

The university has also received recognition through its participation in various agency and media-driven awards, namely, Best Emerging University with Academic Excellence in India by, Asia Today Research & Media, FICCI—Special Jury Recognition for Excellence in Creating Employment, Most Promising University for Curriculum Design and Development 2023 by Observe Now, LinkedIn, under the aegis of the Government of Telangana and Award for Excellence in Enabling Research Environment (Science) by ASSOCHAM National Council on Education. Year at
A GLANCE

The university had a constructive academic year of innovation, excellence and positive growth. The university augmented its infrastructure by building the 15-storied Boys' Hostel Vedavathi, which can accommodate 2003 students, and the 26-storied Ganga Hostel, which can accommodate 1392 students. A state-of-the-art 240-seater theatre was established, facilitating a sophisticated space for creative and experiential learning. We also built a modern Gymnasium with the latest equipment and a Wellness centre to ensure the holistic well-being of our students. An E-learning studio was set up under the aegis of the Teaching Learning Centre, expanding the university's world-class facilities to offer an excellent academic experience.

We relaunched the School of Liberal Arts and Social Sciences as the Easwari School of Liberal Arts, establishing a new era of transformative learning and research to address the complexities of human society. The rechristened Easwari School of Liberal Arts aims to propel students' holistic growth in terms of cultural, emotional and intellectual capabilities and advocates breaking the academic silos of disciplines offering students a more comprehensive integrated learning experience.

A revamped curriculum that is agile, adaptable, and responsive to changing needs with a focus on learning and not teaching was implemented from FY 2023-24. Knowledge, skills, training, and certification are seamlessly integrated into the pedagogy providing active, project-based, blended, and flip learning. Students get industry exposure through internships, live industry problems, and major and minor projects.

In the past year, we increased our faculty strength from 250 to 345. 95% of our faculty hold Ph.Ds, 40% have postdoctoral experience, and 32% have international qualifications and experience. In addition, 40+ faculty are visiting and adjuncts from Industry. We also introduced Outstanding Teacher Awards, Best Researcher Awards and Research Paper/ Patent Publication Rewards to honour our faculty for their remarkable contributions to the university's excellence. Three new interdisciplinary research groups were created, i) Waste to Wealth, ii) Biomedical Devices & Healthcare, and iii) Advanced Manufacturing.

As a research-intensive university, our focus has always been on research and innovation. We facilitate the faculty through professional development allowances on the patterns of IITs/IIMs, seed research grants, start-up seed funds, and patent publication/granting costs. Our faculty members acquired 57 sponsored research and industrial consultancy projects with a cumulative funding of ₹9.80 Cr during the last academic year. The Department of Mechanical Engineering secured funding of ₹2.5 Cr to establish a laboratory in Tomography under the DST FIST Programme.

Our active research ecosystem has thrived and produced exceptional results in the past year in cognisance of our strategic goal - 'Intensify research innovation and entrepreneurial spirit'. With 637 publications this year in Scopus-index journals and 237 in WoS Journals, 72 patents published, and 16 granted, our research count is a testament to the high standards of research being conducted at the university. The university's H-Index rose to 52 in 7 years of existence, which is one of the fastest among all universities of our age.

Notably, we were also ranked 3rd among all private universities in India for the second consecutive time in the Nature Index Ranking and 57th among all Indian universities, institutes of national importance, and research institutions.

During the last year, we have enhanced the entrepreneurial capacities of the students to make them ready for venture-building opportunities with the necessary support systems and resources like boot camps, seed funding, hackathons, mentoring, and networking with other entrepreneurs. Funding of ₹2.00 Cr from Polimer Media under their CSR initiative was received to empower rural women of Andhra Pradesh by imparting entrepreneurial skills and resources. It focuses on economic empowerment, job creation, gender equality and community development. We are running micro-entrepreneurship boot camps and integrating social ventures into world markets. During the last financial year, 4 start-ups, 1 from students, 2 from faculty and staff, and 1 from outsiders, were incubated in our incubator, Hatchlab Research Centre.

The year witnessed numerous national and international conferences, workshops, development programmes, symposia, eminent lectures, and sessions, highlighting the significance of global exposure and awareness of students and faculty in the emerging field of research and innovation. One of the notable conclaves was the Industry-Academia Dialogue organised with the objective of revamping the curricula for achieving academic excellence. More than 50 professionals from the industry and leading practitioners from the social sector participated in the dialogue to address the foreseen challenges in higher education and recalibrate the curriculum of the varsity. These events have aided the university in striving towards academic excellence, a pivotal component of the strategic goal plan.

Throughout the year, the university hosted many flagship events, such as - Alumni Day, Research Day, and International Women's Day and marshalled a Techno-cultural fest, Business fest and Sports fest, among others, to enhance the student experience. About 50 delegates from around the globe and more than 100 students from international schools and universities visited our campus as part of student exchange programmes. Faculty members mentored students by hosting 51 mentor-mentee programmes, providing them guidance and support in various areas of scholarship and overall well-being.

More than 172 students participated in immersion programmes across the globe, research and industrial internships, and semester-abroad programmes. Students from the Engineering and Management streams had the opportunity to experience a term at the Rennes School of Business and the University of Kentucky as part of the International Transfer Programme. 69 students visited universities in the UK, Australia, Singapore, South Korea and Taiwan, where they had the opportunity to showcase their talent and knowledge imbibed at SRM University-*AP* in a highly competitive environment.

Students and faculty from SRM University-*AP* further achieved remarkable success, earning multiple awards and accolades throughout the year. Notably, a student was awarded the prestigious DST INSPIRE Fellowship from the Department of Science and Technology, Government of India. Furthermore, one student secured a coveted travel grant for Spain from SERB, a reputed government organisation in India. Our faculty members also garnered recognition, with achievements such as the Bhaskar Award, Hiyoshi Young Leaf Award and the Young Scientist Award from the Biotech Research Society of India, among other accomplishments that further highlight their expertise and dedication in their respective fields.

We established a collaboration between industry and academia through a strong emphasis on industry partnerships, professional development programmes, and experiential learning to ensure that our graduates enter the future workforce with composure, confidence, and competence. 500+ companies visited the campus to recruit our students into their reputed organisations with many receiving International, Marquee and Super Dream offers. ₹42.8 LPA was the highest package secured by our students, with the average package being ₹9.07 LPA. More than 400 companies visited the campus, the notable ones are Flipkart, PayPal, Barclays, Servicenow, Standard Chartered Bank, City Union Bank Limited, HP, IBM, Philips, Tata Communications, Ericsson, Volvo, Honeywell, Royal Enfield etc.

Higher Studies is a key graduate outcome guaranteed by the university. During FY 2023-24, 155 students secured higher studies admissions to top QS-ranked international universities, such as the National College of Ireland (QS ranked #5) and the National University of Singapore (QS ranked #8), to continue their academic success.

We successfully launched SARC (Student Alumni Relations Committee) to promote and foster mutually beneficial interaction between the alumni and the alma mater. To encourage alumni to take an abiding interest in the progress and development of the university, society, and the country, we also created an Alumni Association under Section 3 of the Societies Registration Act, 2001.

We shall continue to march towards excellence in the future years with the objective of becoming one of the top universities in the world.
